## A. Mission Description and Budget Item Justification

The RDT&E funds contained in the DIS budget are administered by the Department of Defense Institute (DoDPI). These funds are to provide grants for master's and doctoral degree students and funding to academic and private institutions for research in forensic psychophysiology. The research program has three Congressionally mandated research areas: (1) evaluate the validity of polygraph techniques, (2) conduct research on polygraph countermeasures, and (3) conduct development research to improve polygraph technology. Research falls into four major categories: (1) computerization of polygraph test results, (2) new physiological measures and equipment, (3) new test formats and procedures, and (4) miscellaneous grants to construct a computerized data base that contains studies and statistics on polygraph studies.

Rick,

Per our conversation, I have attached in a word document in the enclosed diskett, the DIS Research, Development, Test and Evaluation, Defense wide FY 1998/1999 Biennial Budget Estimates, and the RDT&E Budget Item Justification Sheet (R-2 Exhibit).

A handwritten signature in black ink that reads "Michael Finucane". The signature is written in a cursive style with a large initial "M".
